

## AUSTRALIAN DESIGNED AND MANUFACTURED

5 YEAR WARRANTY\*

### Options:

- Takedown lights
- Alley lights
- Cleversectors™ (12V only)

### Director Bar

- Several flash patterns available

### Tip Up Message Display

- Does not block warning lights
- Display is protected when not in use
- 200+ programmable messages
- Red or amber available

### LED Colours available:

- |   |   |
|---|---|
|  RED   |  MAGENTA |
|  BLUE  |  GREEN   |
|  AMBER |  WHITE   |

### Lens Colours available:

- |  |   |
|--|---|
|  RED  |  AMBER   |
|  BLUE |  C CLEAR |

### Features and benefits:

- Low profile unit with aerodynamic efficiency and unobtrusive styling
- Low current draw (approximately 20% of a standard lightbar – a standard 12 volt rotator draws 5 Amps, an LED module draws 0.2 Amps)
- Long service life due to LED technology and no moving parts
- LEDs rated to 100,000 hours of operation
- Solid state encapsulated electronics
- Weather-proof housing
- 360 degrees light output with increased vertical dispersion at peak output
- Meets strict European EMC directives

\*5 year warranty on LED components

### Construction:

- Polycarbonate lens with aluminium extrusion for strength and durability
- Plug in wiring harness for easy installation
- Unique mounting allows for a neat fit to the roof of the vehicle
- Height (centre) 53mm Width (centre) 305mm
- Lengths available: 810, 1070, 1200, 1330, 1460, 1590, 1720, 1850 and 1980mm

### Electrical:

- Units available in 12 or 24 volt
- May be controlled by conventional switches, relays or an integrated siren/amplifier switch (such as 809-001)

# 10 SERIES LIGHTBARS
