

EZ-Glide® Powered Track Stair Chair

Features and benefits:

- The EZ-Glide® Powered track stair chair assists patient loads up to 180 kg up and down stairs without carrying or lifting
- The motor and track system carry the weight, not the medic, reducing fatigue and the chance for injury
- Provides maximum safety when going up and down stairs, using an electronically controlled 12V motor and direct drive transmission with chair tracks
- Easy operation with just the push of a button to stop, climb, or descend stairs
- Fast climbs and descents using variable speed system
- Maximum performance on every call with intelligent microprocessor electronics that include an integrated charging system and a standby mode (after 1 minute of inactivity)
- Superior maneuverability in confined spaces and over carpet
- Full control of operation with a manual override that allows medics to use in unpowered mode.
- Smooth 100 mm front swivel wheels and extra tall 150 mm rear wheels do not collect debris and provide maneuverability in confined spaces
- Large patient seating surface with removable ABS plastic seat panels
- Extending foot-rest and lower track angle increase patient sense of security

EZ-Glide® Evacuation Stair Chair

Features and benefits:

- The EZ-Glide® Chair can be used as a stair chair, evacuation chair, and transport chair.
- Two rear tracks contact the lip of stairs allowing the tracks to glide over the edge of each step, eliminating the need to lift the chair and patient
- All-metal frame construction carries up to 225 kg to accommodate a wide range of patient sizes
- Two 4" (102 mm) front swivel wheels and two 6" (153 mm) rear wheels with wheel locks
- Five-position rear lift bar (from 37.5" to 63.5" / 950 mm to 1613 mm)
- Five-position front telescoping handles (from 5.4" to 19" / 137 mm to 483 mm)
- Snap-on ABS plastic panels
- Extending footrest
- Chair folds for easy storage
- With rear locking lift handles
- Available red, blue, and platinum

Model 71 Basket Stretcher

Features and benefits:

- One-piece basket stretcher
- High-density polyethylene shell
- Heavy-duty aluminum frame
- Molded-in runners and handholds
- Chemical, UV, rust, and corrosion resistant
- Brass grommets for quick use
- Closed-cell foam pad is easily replaceable
- X-ray translucent for arms, legs, and chest
- Includes four restraints

Model 108-AF Double-Fold Pole Stretcher

Features and benefits:

- Heavy duty aluminum poles for easy handling
- Heavy duty vinyl-coated nylon covers
- Nonslip hand grips
- Folds lengthwise and crosswise for compact storage
- Rugged spreader bars and legs provide support and comfort

Ferno® Model 26-P Cot

Features and benefits:

- Advanced roll-in cot with two levels of height adjustment: fully elevated or ground level
- Independent folding legs
- Aluminum frame construction with powder-coated tubing
- Scuff guards protect legs during loading & unloading
- Two stationary wheels, and two 360° swivel wheels with wheel locks
- 150 mm (5.9 in.) U-tread wheels maximize cot mobility
- Swing-down sidearms for convenient patient transfer from bed to cot
- Gas assisted backrest with infinite range of adjustment up to 68°
- Main frame features shock position
- Includes footrest, safety lock, and leg lock
- Fold-down load frame shortens the length of the cot

Ferno® Model 28 Roll-in Chair Cot

Features and benefits:

- Simple conversion from chair to cot position
- Legs automatically lock in place when unloading cot
- Rectangular tubular aluminum construction
- Lubrication free rotating components for easy movements
- Swing-down sidearms
- Two 127 mm (5 in.) stationary and two 127 mm (5 in.) swivel wheels
- Adjustable eight-position backrest with angles from 0° to 75°
- Loading wheels provide easier transfer
- Undercarriage safety lock
- Mattress and restraints included
- Load limit 295 kg
- IV Pole and Oxy-Clip sold separately

Ferno® Model 25 Cot

Features and benefits:

- Simple to use roll-in cot with two levels of height adjustment: fully elevated or ground level
- Independent folding legs
- Lightweight tubular aluminum construction provides durability and strength
- Swing-down sidearms enable convenient patient transfer from bed to cot
- Two stationary and two 360° swivel wheels
- Adjustable backrest angles from 0° to 75°
- Now includes two roll-out wheels

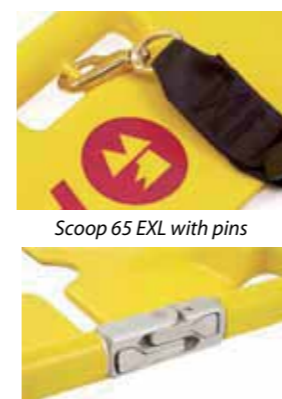

Ferno® Model 65EXL Scoop Stretcher

Features and benefits:

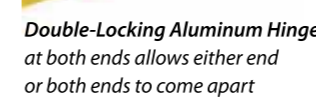

- Uncouples at one or both ends of the stretcher to gently scoop up the patient using a scissor-type closing motion
- Thermally-treated polymer construction does not get too hot or cold, keeping the patient more comfortable
- Ergonomic oval profile and angled handles
- Twin-safety-lock mechanism provides smooth locking and unlocking
- Head section is recessed for proper cervical alignment
- Adjustable for patients of different heights
- Narrow foot-end frame improves handling in confined areas
- Easy to clean surface is impervious to fluids
- X-ray translucent
- Folds to 47" (1194 mm) for compact storage

Adjustable Length accommodates patients of multiple heights

Scoop 65 EXL with pins

Double-Locking Aluminum Hinge at both ends allows either end or both ends to come apart

Folding Design provides compact storage in ambulance compartments
