

S311 E – Cutter

The “little brother” of S 700 E is very convenient and with its sophisticated blade geometry, fully optimised for vehicle extrication. Rescue workers value its high cutting performance and blade opening - not to mention its low weight!

Advantages

- + Optimal blade geometry
- + High cutting performance
- + Lightweight and well-balance design is less tiring
- + High reliability in use due to robust blades with long service life

In use

Technical data

S 311E

Round bar

33 mm

Blade opening

150 mm
